- Designing a web application to facilitate a made-up company managing offers and tender applications.

SKILLS

Java HTML CSS JavaScript MongoDB
Office Time Management Communication
Software Testing JEE OOD HSQLDB
Spring Python Node.JS SQL Linux

PROJECTS

Decentralized Chat Web Application (2019) [🔗](#)

- The idea of a decentralized chat is so important because nowadays privacy is something to take into account. If a user has complete access to its data with no intermediary, we can ensure that all of its information would not be compromised.

MyWallapop (2019) [🔗](#)

- Spring Web Application, available in 5 Languages, that allows users to post and buy offers and sales. In addition to different features like a simple chat to make it easier for the users to get information about the posted sales.

HONORS / AWARDS

With Honors - Human-Computer Interaction (2020)

Solid Chat Challenge (2019)
