SKILLS

Java   HTML   CSS   JavaScript   MongoDB

Microsoft Office   Time Management

Communication   JEE   Back-End

Software Testing   HSQLDB   Spring   Python

PROJECTS

Decentralized Chat Web Application (2019) ☐
- The idea of a decentralized chat is so important because nowadays privacy is something to take into account. If a user has complete access to its data with no intermediary, we can ensure that all of its information would not be compromised.

MyWallapop (2019) ☐
- Spring Web Application, available in 5 Languages, that allows users to post and buy offers and sales. In addition to different features like a simple chat to make it easier for the users to get information about the posted sales.

HONORS / AWARDS

With Honors - Human-Computer Interaction (2020)

Solid Chat Challenge (2019)
